Bahasa Malaysia
Native

PROFILE

Full-stack developer with 5+ years building production systems. At Westports since 2021, I build the departmental systems a container terminal runs on and turn slow legacy apps into fast, modern ones. As founder of kufiz.dev I ship my own products: Chrome extensions, browser 3D games and AI tools.

5+	11	2
years in production	projects shipped or in progress	national innovation medals

EXPERIENCE

IT Developer · Westports Holdings
Apr 2021 – Present

- Build new systems and reports for departments across the container terminal.
- Migrated legacy systems to PHP 8 and Bootstrap 5.
- Found and optimised slow SQL queries to speed up daily operations.
- Set documentation standards, mentor junior developers and gather requirements with users.

Founder · kufiz.dev
Independent

- Design, build and publish my own products, from Chrome Web Store extensions to multiplayer browser games.

Junior Programmer · WizApp System
Oct 2019 – May 2020

- Enhanced in-house logistics and shipping systems.
- Worked with outsourced development teams on in-house features; adopted CodeIgniter.

Software Developer (Intern) · Dataone Services
Dec 2018 – Apr 2019

- Built an SLA monitoring dashboard and user forms for TNB; ran data checks for duplicates and anomalies.

SELECTED PROJECTS

Password Vault v3.23.2
Keyboard-driven password manager for developers on the Chrome Web Store.
`JS · Chrome MV3 · Web Crypto`

Ambush v1.5
Multiplayer browser shooter: 20 players, 5 maps, 7 modes, LAN and online.
`TypeScript · Three.js · WebSocket`

Port Digital Twin WORK
3D digital twin of a container terminal with road-network routing.
`TypeScript · Three.js · Mapbox`

KUFIZ AI WIP
Private ops assistant with a brain router and an approval queue.
`Python · Hermes Agent · Ollama`
